

# Kaartik Malhotra

Interaction Designer

Delhi, India

Hi! I am Kaartik Malhotra, and I am an Interaction Designer, UI/UX Designer and UX Researcher with nearly 3 years of experience ranging from startups to major corporates.

I love the minimal design which is simple and easy to use. I love things with beautiful aesthetic but at the same time, I don't want to compromise with the usability. Taking care of my client is my top priority and as a designer, I feel that I must design things that are incredibly easy to use.

I am currently studying Computer Science Engineering with specialization in Information Security from VIT Vellore which is considered one of the best college in India.

I consider myself as a hardworking and a reliable individual with a passion for design.

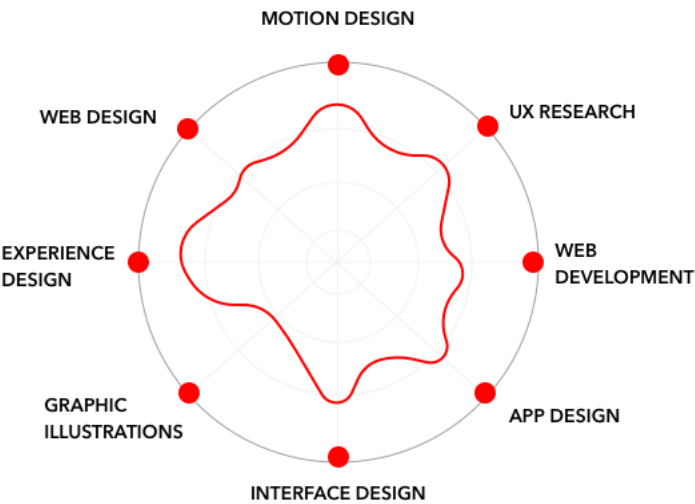

Working for firms like PVR Cinemas and Fitness First and several other startups have allowed me to gain a huge amount of exposure that'll help me to achieve great design goals.

**Why don't we work together?**

I'M KAARTIK MALHOTRA AND I'M  
AN **INTERACTION DESIGNER** AND  
**UX RESEARCHER**
